

Ruby - Feature #12338

bypass Exception.new

05/02/2016 08:10 AM - nobu (Nobuyoshi Nakada)

Status:	Closed	
Priority:	Normal	
Assignee:		
Target version:		
Description Redefinition of class method new is an outdated style, and internal exceptions should not be affected by it. https://github.com/ruby/ruby/compare/trunk...nobu:feature/exc_new-bypass https://github.com/ruby/ruby/pull/1331		
Related issues: Related to Ruby - Bug #14229: An exception in eval has strange message Closed		

History

#2 - 05/17/2016 09:13 AM - nobu (Nobuyoshi Nakada)

Currently, exception in eval shows the followings:

```
$ ruby -e 'eval("raise")'
-e:1:in `eval': (eval):1:in `
```

I don't see a reason ""eval"" is prepended.
