

Ruby - Misc #11584

Kernel::loop silently catching StopIteration, should be documented

10/12/2015 10:42 AM - rovf (Ronald Fischer)

Status:	Closed	
Priority:	Normal	
Assignee:		
Description		
The method Kernel::loop implicitly catches a StopIteration exception. This fact is documented on the documentation page for StopIteration, but it should also (and more importantly) be documented with the Kernel::loop method, because if one doesn't know this detail, the behaviour can be pretty surprising - see for example http://stackoverflow.com/questions/33040260/combining-raise-and-throw/.		

History

#1 - 11/02/2015 01:57 AM - nagachika (Tomoyuki Chikanaga)

- Status changed from Open to Closed

r52218 added documentation about Kernel#loop and StopIteration.
