

Ruby - Bug #16488

2.7 spews warnings about net/imap

01/08/2020 10:41 PM - chdiza (Charles Diza)

Status:	Closed	
Priority:	Normal	
Assignee:		
Target version:		
ruby -v:	ruby 2.7.0p0 (2019-12-25 revision 647ee6f091) [x86_64-darwin18]	Backport: 2.5: UNKNOWN, 2.6: UNKNOWN, 2.7: DONE
Description I just upgraded from 2.6.5 to 2.7.0. Some of my scripts are now emitting warnings that weren't there before. Eg., #16469. Specifically in this report I want to complain that ruby 2.7 is issuing warnings about it's own net/imap library: lib/ruby/2.7.0/Net/imap.rb:906: warning: Capturing the given block using Proc.new is deprecated; use &block instead

I've pushed <https://github.com/ruby/ruby/commit/65c2c75e162ebc8c4b35b0823967eeb132c00749>. Could you please check if the fix works for your program? Thanks!

#3 - 01/09/2020 11:07 AM - nagachika (Tomoyuki Chikanaga)

- Backport changed from 2.5: UNKNOWN, 2.6: UNKNOWN, 2.7: UNKNOWN to 2.5: UNKNOWN, 2.6: UNKNOWN, 2.7: REQUIRED

#4 - 01/12/2020 07:05 PM - chdiza (Charles Diza)

That patch appears to have fixed the symptoms I see with Net/imap.

#5 - 03/13/2020 12:16 PM - naruse (Yui NARUSE)

- Backport changed from 2.5: UNKNOWN, 2.6: UNKNOWN, 2.7: REQUIRED to 2.5: UNKNOWN, 2.6: UNKNOWN, 2.7: DONE
